These prices are based on a 160-character SMS (or 70 if the text includes Emojis). This would equal 1 "Segment"

If your SMS is more than 160 characters it's broken into additional "Segments." So every 160 characters = 1 segment. Therefore, if you sent a text that had 250 characters that would be billed in 2 segments so you'd be billed 2x what the price per 1 segment is.

Here's an example of a 153 character text that would cost \$.011 cent to send in the US:

Hey Joe, thanks for grabbing our free IG Shoutouts masterclass. Check your email (maybe in SPAM) for your course access. To remove yourself, reply STOP

Here's an example of a 297 character text that would cost \$.022 cent to send in the US:

Hey Joe, thanks for grabbing our free IG Shoutouts masterclass. Check your email (maybe in SPAM) for your course access. If you want to schedule a free call to take advantage of an amazing opportunity to work with us, schedule here: <https://www.elite360.io/my-link>  
To remove yourself, reply STOP
